— Dogs

— Cats

— House-trained

— Water

♥ About Iris

Introducing 11 month old petite and gentle Iris. Iris will need a very special adapter. She has a heart murmur. Grade 3-4. This means that she will need her activity level monitored, she will sleep more than most dogs her age and will need to be on Pimobendan/Vetmedin. Iris could very well live a very long life, or she could pass unexpectedly and quickly.

Iris is very loving and crate trained. She was surrendered along with her sister, Lily. We are working to get her spayed and up-to-date on vaccines. Unknown behavior around cats. They have been very under socialized as they were surrendered by a "breeder"....
